SUMMARY

MERN Stack Web Developer specializing in React.js, Node.js, Express.js, MongoDB, and modern JavaScript, with 2 years of hands-on self-learning experience. Built multiple full-stack projects, including production-style web applications and RESTful API-based systems. Focused on developing scalable, reliable backend services, efficient APIs, and maintainable frontend architectures.

TECHNICAL SKILLS

Frontend: React.js • HTML • CSS • JavaScript (ES6) • TailwindCSS

Backend: Node.js • Express.js, RESTful APIs

Database: MongoDB • Mongoose

Tools & Others: Git • GitHub • MS Office • Photoshop • Python Programming

Core Strengths: Problem Solving • Teamwork

PROFESSIONAL EXPERIENCE

Customer Service Representative (Short-Term Job)

March 2025 (15 Days)

Karachi, Pakistan

- Handled customer communication and issue documentation in a fast-paced environment.

Self-Learning Experience

Jan 2024 - Present

Karachi, Pakistan

- Developed multiple MERN-based applications focusing on backend logic, APIs, authentication, and database design.
- Improved application performance and maintainability through clean architecture and reusable components.

PROJECTS

Blogging Platform - MERN Stack | [Github](#)

arbaz-blog-platfrom.com

Aug 2025 - Aug 2025

- Built an admin-driven blogging platform with publish/unpublish workflows and comment moderation.
- Integrated Gemini AI API for blog content generation from the admin dashboard.
- Designed RESTful APIs and MongoDB schemas to manage blogs, users, and comments.

AI Thumbnail Generator - (SaaS) Gemini API | [Github](#)

Jun 2026 - Feb 2026

- Developed a full-stack AI-powered thumbnail generation platform using the MERN stack with secure session-based authentication and protected routes.
- Integrated Gemini Pro API for AI thumbnail generation and Cloudinary for secure image storage, managing the complete async workflow from request to image rendering.
- Designed structured backend architecture (MVC pattern) including authentication logic, thumbnail management, user-specific data handling, and MongoDB schema design.
